BBLA Advocacy Efforts for a New Federal Study of the Inland Bays Come to Fruition

Members Asked for Action on Flooding & BBLA Responded:

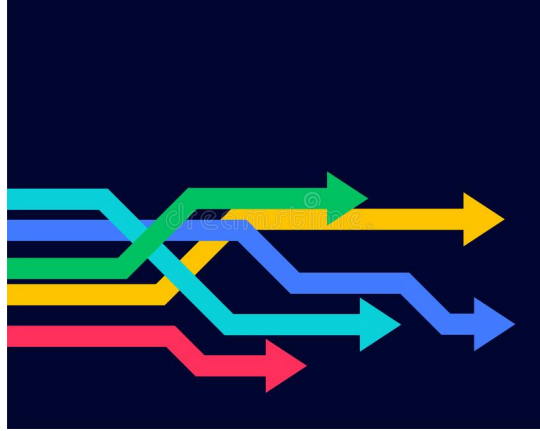

- BBLA has continually advocated for DE to be a non-federal partner on a Back Bay Study to identify and evaluate solutions to the nuisance or sunny day flooding which has plagued beach communities for many years
- Our letters to the Governor have been posted on the website and countless strategic meetings with Federal, State, and local officials have taken place over the past 18 months

Informed Voices Make a Difference

Results & Moving Forward

We are pleased to announce that the cost-sharing agreement was signed on November 29, 2022 by the U.S. Army Corps of Engineers and the DE Department of Natural Resources and Environmental Control. The agreement formally kicks off the Delaware Inland Bays and Delaware Bay Coast Coastal Storm Risk Management Study. Read the [BBLA Press Release](#) for more information.
